repackage of a classic sociology text in which the author develops the idea of resistance to social and economic pressures

since his death in 1986 michel de certeau s reputation as athinker has steadily grown both in france and throughout theenglish speaking world his work is extraordinarily innovative andwide ranging cutting across issues in historiography literary andcultural studies anthropology sociology

theology philosophy and psychoanalysis this book represents the first full length study of cerateau s thought it is organized around the central theme of interpretation and alterity which ahearne uses to illuminate cerateau s work as a whole the author also examines cerateau s theory and practice of historiography his reflection on the relations between changing historical forms of writing reading and orality and his distinction between the strategic programmes of the politically powerful and the tactics of the relatively powerless ahearne places cerateau s work in its general intellectual context relating it to the views of important contemporary thinkers such as pierre bourdieu and michel foucault and demonstrating the decisive importance to cerateau s thought of the writings of the early modern mystics and travellers this book constitutes an excellent critical introduction to cerateau s work while also providing a comprehensive and nuanced reading for those already familiar with his thought

mahri leonard fleckman focuses on identity and representations of the proximate other in the shephelah borderlands in the southwestern region of iron age israel ca 1200 586 bce presenting irresolution as a practice for historians of the hebrew bible and ancient levant focusing on two sites timnah and gath she takes an interdisciplinary approach to the study of the region and journeys through texts and archaeology that bear witness to the social and political complexities of the iron age shephelah borderlands

how the light gets in ethical life i presents a systematic account of the teachings of the christian faith to offer a vision from a human created and limited perspective of the ways all things might be understood from the divine perspective it explores how christian doctrine is lived and the way in which beliefs are not simply cognitive sets of ideas but embodied cultural practices christians learn how to understand the contents of their faith learn the language of the faith through engagements that are simultaneously somatic affective imaginative and intellectual in the first of four volumes graham ward examines the complex levels of these engagements through three historical developments in the systematic organization of doctrine the creeds the summa and protestant dogmatics he outlines a methodology for exploring and practicing systematic theology that captures how the faith is lived in cultural social and embodied engagements ward then unpicks several fundamental theological concepts and how they are to be understood from the point of view of an engaged systematics truth revelation judgement discernment proclamation faith seeking understanding and believing as it relates to and grounds the possibilities for faith this groundbreaking work offers an interdisciplinary investigation through poetry art film the bible and theological discourse analysing the human condition and theology as the deep dream for salvation the final part relates theology as a lived and ongoing pedagogy concerned with individual and corporate formation to biological life social life and life in christ here an approach to living theologically is sketched that is the primary focus for all four volumes ethical life

an unprecedented reading of mexican history through the lens of performance

the encyclopedia of consumer culture is the first reference work to outline the parameters of consumer culture and provide a critical scholarly resource on consumption and consumerism

de Certeau is often considered to be the theorist of everyday life par excellence this book provides an unrivalled critical introduction to de Certeau's work and influence and looks at his key ideas and asks how should we try to understand him in relation to theories of modern culture and society Ian Buchanan demonstrates how de Certeau was influenced by Lacan Merleau Ponty and Greimas and the meaning of de Certeau's notions of strategy tactics place and space are clearly described the book argues that de Certeau died before developing the full import of his work for the study of culture and convincingly it tries to complete or imagine the directions that de Certeau's work would have taken had he lived

seminar paper from the year 2007 in the subject english language and literature studies culture and applied geography grade 17 university of paderborn course narratives of london language english abstract some people say you can only experience london as you walk it others say that riding the london tube gives you the real picture of the city as you receive different perspectives indeed the world's oldest and largest underground is one of the city's most prominent and prototypical features for more than 140 years a diverse range of people such as tourists visitors provincials and commuters have travelled the metropolis by underground yet all of them for the same reason to get from one place to the other from the opening of the first line in 1868 the london underground also attracted the attention of many writers who depicted this means of transportation in their works in fact the london underground still fascinates many contemporary authors such as Doris Lessing and Charlie Higson reading Lessing's in defence of the underground or Higson's the red line you are taken along on a journey below the city exploring the metropolis while the story's characters travel through london they organize space when riding one of the underground lines certain places and linked together as the story continues the narrative structures unfold to be spatial syntaxes that take the reader along on a tour through the metropolis in this paper i will argue to what degree texts about the london tube as well as the london underground maps can be considered a way of organizing the space of london first of all i want to give a short introduction on spatial theory and a definition of the concept of spatial stories afterwards i will apply my findings on spatial stories to the london underground texts in defence of the underground and the red line moreover i will discuss the different representation of london within the two texts finally i want to examine to what degree london underground maps can be considered a way of organizing the space of the city

volume 1 considers the uses to which social representation and modes of social behavior are put by individuals and groups describing the tactics available to the common man for reclaiming his own autonomy from the all pervasive forces of commerce politics and culture volume 2 is based on microhistories that move from the private sphere of dwelling cooking and homemaking to the public the experience of living in a neighborhood delves into the subtle tactics of resistance and private practices that make living a subversive art
